

**Transportation Asset Management Council**  
**Monthly Report**

February 2006

- Staff continued to review the PASER condition data collected in 2005. Presentation of the analysis will be given at the March 1 Council meeting.
- Training was provided to the MPOs and regional planning agencies and to the local road agencies in the Eastern UP on the investment reporting tool. Training in other regions is being scheduled for March and April.
- Staff met with representatives of Cambridge Systematics to discuss revisions to the Draft Guide and Training Course. Revised versions were presented to the Asset Management Council at their March 1, 2006 meeting.
- Work continued on the planning for the first annual Michigan Asset Management Conference to be held May 10, 2006, at the Kellogg Center on the campus of Michigan State University.
- The Model Analysis Team met on February 9<sup>th</sup> in Lansing. The team identified team responsibilities and protocols for meeting. Members met with the Strategic Analysis Committee on February 22.
